

Diminished Value Case Study For 2018 Toyota Highlander with Severe Damage

Friday, January 20, 2023.

The 2018 Toyota Highlander is a great choice for those in the market for a reliable three-row crossover SUV. You can count on a smooth ride, plenty of standard features and an optimal size for an all-purpose vehicle. Not only does it come with more safety features than many rivals, but passengers will be sure to appreciate its luxurious cabin and plush ride - ideal for longer trips. The V6 engine option is preferable to the weaker base four cylinder engine, perfect if you'll need to transport people or goods regularly. Though it may not offer quite as much space as competitors or unprecedented handling capabilities, the Highlander still stands out as one of the top three-row SUVs around.

There are plenty of standard safety features in the Highlander, which is a plus, particularly if you don't want to spend a lot of money on a range-topping model. The infotainment system is intuitive and easy to use. The 8-inch version of Toyota's touchscreen (standard on most models) is remarkably responsive and has large, easy-to-press icons. Highlanders come standard with forward collision warning, automatic emergency braking, adaptive cruise control, lane departure intervention, blind-spot monitoring, and rear cross-traffic alert.

Did You Crash Your 2018 Toyota Highlander?

Your day was like any other, you were minding your own business when you suddenly had a car accident. Did you know that a wrecked and repaired car can lose over \$6,955 in value?

Diminished Value Calculator	
Before Accident Cash Value	\$34,775
After Accident Cash Value	\$27,820
Diminished Value	\$6,955
