

## Diminished Value Case Study For 2019 Toyota Camry with Severe Damage

Friday, December 30, 2022.

While the 2019 Camry has sleeker styling, it stands out among the midsize sedan crowd because of its improved fuel economy, handling, and advanced safety systems.

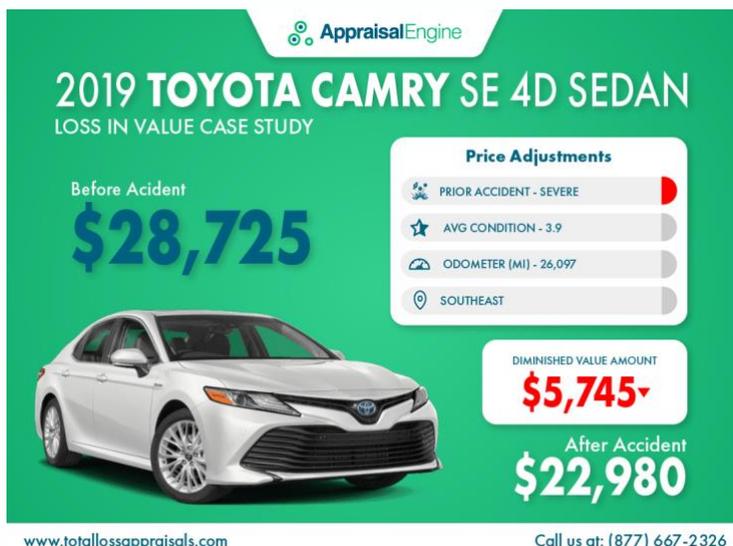

The Camry provides a comfortable ride, nimble handling, and a long list of driver assistance features. The interior comes equipped with high-quality materials, roomy seats, and a generous number of user-friendly features.

Its 2.5L, four-cylinder engine delivers a smooth ride, responsive handling, and excellent fuel economy, returning up to 45 mpg on the highway.

As compared to the previous model, Toyota has made few significant changes to the 2019 model. However, the company does add some desirable upgrades that make it more appealing. Among these is Apple CarPlay, which is now standard; Android Auto remains absent. The 2019 model includes a Wi-Fi hotspot and a three-year Safety Connect subscription, which offers roadside assistance and emergency services.

In all six crash tests, the 2019 Camry was rated Good by the Insurance Institute for Highway Safety. The headlights achieved the second-highest rating of acceptable road illumination.

With well-priced cars and a variety of models that appeal to most buyers, the 2019 Toyota Camry is a great choice if you're looking for something with a little more class and space than a small sedan.

## Did you crash your 2019 Toyota Camry?

Your day was like any other, you were minding your own business when you suddenly had a car accident. Did you know that a wrecked and repaired car can lose over \$5,745 in value?
